</table>
| 4      | Rate Validity                    | (i) The prices/rates quoted by the bidder shall be required to be valid for a period of 12 months from the date of work order. The Request order will have to be executed by the Successful Bidder as per the quantities requested by the Authority/RMC in a Request Order at the specified sites within the specified time mentioned in Request Order.  
(ii) RMC may implement the AVLS in phases. Rates beyond Rate Validity period shall be negotiated rates. |
| 6      | Warranty/ Guarantee Period       | Warranty period for Hardware and Software supplied and installed by the Service Provider shall be minimum one year from the date of issue of Project Execution Certificate. |

3
2. Scope of Work
The Scope of Work shall broadly comprise the following activity:

A. Supply and Installation of GPS system in city buses
1) Monitoring/Tracking the transportation of City Buses for one year during Guarantee and 5 years after completion of Guarantee.
2) The successful bidder shall supply GPS Devices with SIM/Data cards for enabling GPRS on the GPS Device for Vehicle Tracking. Monthly recurring charges for the same will be paid by supplies for Guarantee period of one year and later on Annual charge basis for further period of 5 years. GPRS devices are required to hold data for at least 60 days.
3) Monitoring of Routes and Stoppages of city buses and keeping a record of the trip they have made route wise and bus wise.
4) Web based application Software with hosting services, SMS gateway and Google maps.
5) The successful bidder shall provide off the shelf Web based Vehicle Tracking Software and customize the same as per the requirements of RMC to operate and maintain the GPS based Vehicle Tracking devices installed in transport vehicles across the Ranchi city.
6) The successful bidder shall install the GPS devices in all the buses within the time frame set by RMC. The reports generated from system should be sufficient to calculate the performance of the entire system and penalties as prescribed.
7) It is assumed that the entire route of a vehicle is covered by GPS and leading mobile network. But there might be some parts of the route where there is no network coverage. So the system must work in off-line mode too for these areas and will provide the data once the vehicle enters in the GPRS zone.
8) The Bidder shall be responsible for updating and upgradation (if required) of all Software and Hardware for successful operation of the Project during the Contract Period. RMC would be eligible to demand free upgrades as and when they are launched within the contract period.
9) All data generated during the operation period shall be the property of RMC. The vendor is also required to submit the data for every two month in the form of soft and hard copy to the RMC.
10) The successful bidder has to share the API/data/ specific MIS as per the requirements of RMC without any additional charges.
11) All the supporting accessories and associated software, monitoring dashboard will be provided by the bidder and apart from the quoted in the financial proposal, no other cost will be entertained by the RMC thereafter.
12) The rate of unit device is valid for one year from the date of work order. RMC may procure additional devices on the specified rates.

3. Deliverables
The successful bidder shall deliver / provide the following:

1) Hardware –GPS Device, internal battery, internal antenna.
2) Web based Application Software with hosting services, SMS gateway, Google maps.
3) User Manuals.
4) Training to RMC Staff
5) MIS reports as defined.
6) Mapping of Stoppages, Routes and Depots.
7) Monthly operation and maintenance.
8) Man power in Ranchi Municipal Office at initial stage of project maximum upto six month.
9) GPS-VTS
   a) Capturing latitudes, longitudes of Stoppages, Routes and Depots
   b) Geocoding and Geofencing of Stoppages, Routes and Depots
   c) Route fixing
   d) GPS device installation
   e) SMS/E mail based Alerts
   f) Customized MIS reports
   g) Real time location monitoring
10) Functional Requirement:
    a) Tracking of Vehicle
       i) Supply and Installation of GPS Devices: The successful bidder shall install GPS trackers (with inbuilt GPRS module) in vehicle/buses and manage the tracking of entire fleet operations on real time basis. The Successful Bidder shall replace non-functional/faulty device in given time limit from registering of complaint with new device during the contract period. Technical specifications are mentioned in the document.
       ii) Trip Tracking: The system shall track each and every bus/vehicle carrying the passengers from Source to destination. The tracking shall be real time and web based. Entire set of applications and their features shall allow secure web based online access to obtain real time information. The secure access shall be provided through popular browser interfaces.
       iii) Tampering Alert: In case of tampering of any equipment, component of vehicle tracking system etc., alert should be given through SMS/On-screen Pop Up Alert with Sound on about 4 to 5 relevant Mobile Nos. or as suggested by RMC.
       iv) Route Deviation/Excess Stoppage Alert: In case of deviation of vehicle from pre-defined routes or excess stoppage of vehicle beyond a specified time duration alert should be given through SMS on about 4 to 5 relevant Mobile Nos. or as suggested by RMC.
    b) WEB based Vehicle Tracking Software
       i) The Application Software should be hosted by the successful bidder at their own cost during warranty and AMC period having all the administrative rights and access to the RMC.
       ii) The offered application software product should be readily available (off the shelf) and should be able to deliver and start implementation within the specified time frame as mentioned in this RFP.
       iii) Geographical Boundaries of State, District, Block, village and have to update the boundaries if new administrative entities are created by the government.
       iv) Point data relevant to Source (Depots) and destination
       v) Real time report of the movement of the GPS enabled vehicles on the map to the users based on their privileges.
       vi) The bidder shall maintain a dynamic reporting system. The bidder is also expected to provide hollowing customized MIS report as per requirements of RMC.
          (a) Live location of the Vehicle
          (b) Working Hour/Efficiency reports
          (c) Detailed Activity reports
          (d) Vehicle Summary
          (e) History Report (showing path taken by vehicle)
          (f) Trip-wise Report
          (g) Route Deviation Report
(h) Vehicle stoppage report.
(i) Monthly monitoring summary

vii) Dynamic Route Management: must be able to create and assign routes based on the landmarks and stoppages with option to assign single or multiple vehicles on the route created.

c) Mobile Application
i) Real time monitoring of vehicles
ii) Trip Reports
iii) Vehicle Day Summary

d) Training

Successful bidder shall provide a training manuals and user guides for the system. The Successful bidder shall also provide the training on GPS device and Tracking system to approx. 8-10 users/officials at RMC. Successful bidder shall develop a training plan that ensures all users of the system receive sufficient training to successfully operate the system. User department will provide the space for training with other logistic arrangement such as Laptop, projectors, internet connectivity etc.

e) Comprehensive Maintenance and Support Service

Successful bidder has to supply, operate and maintain all the items covered in the scope of this tender during contract period. Comprehensive maintenance service includes application software, parts and service, repair work/replacement of GPS device(s) should be done by the bidder without any additional charge. However the reinstalation shall be paid additional. In case the supplied items are down and not working, the service provider should attend to the breakdown call/s within 24 Hours and rectify the problem/s of minor nature (configuration etc). If the problem is of critical and major and where the item/spare parts are to be replaced for rectification of any part/problem the call shall be completed within 48 Hours from the time of reporting the call. Failing which penalty will be recovered from monthly payment and/or from the Performance Security. In addition to attending to the Service/Corrective Calls, the successful bidder shall conduct Preventive Maintenance once in every month for all the items supplied / covered in the scope of work. The Bidder must have a complaint redressal system and centralized contact no to register the complaint about hardware/software issues and will also maintain a log of issues, time and date of receipt of call, cause / nature of problem, date & time of resolution provided etc. The details of complaint redressal system will be provided by the successful bidder to the User department during implementation of the project The successful bidder also set up a command and control system at RMC office and deploy a Project Manager to assist the department and monitor the project for entire period of contract without any additional cost to the user department.

f) Roles and Responsibilities of the System Integrator
i) Understanding the scope of the work.
ii) Entering into agreement with RMC duly submitting the performance guarantee
iii) To provide software and manpower for successful implementation / completion of project.
iv) To implement the project with his own men and material by developing required software and also insuring all men, machines and material against all risks.
v) Backup of data from time to time and providing backup file with compliance report to
vi) Submission of Monthly report to the RMC.

h) Interest free Earnest Money Deposit (EMD) of Rs. 20,000/- in shape of Demand Draft or Bank Guarantee from any scheduled bank drawn in favour of Municipal Commissioner, Ranchi Municipal Corporation payable at Ranchi. The EMD of successful bidder is liable to be forfeited if the bidder revokes any terms of the tender within the validity period. EMDs given by unsuccessful bidders will be refunded after placing of work order to the successful bidder. The validity of bank guarantee shall be 72 months.

4. Annual Maintenance

B. Repairing maintenance and reporting for period of 5 years after completion of the Warranty/Guarantee period.

The supplier have to repair/ replace and maintain the supplied and installed GPS equipments for a further period of five years after the completion of warranty/guarantee period. The service provider shall keep the device functional (all bill and internet charges has to be borne by the supplier) and should provide all the required reports/ data and information to RMC as and when required.

a) AMC for this project includes all types of expenses on VTS devices like device and software maintenance, data charges, device replacement charges(in case of non functioning of the device ), application hosting charges, SMS alert charges etc.

b) The payment will be made by RMC after successful commissioning of work. The AMC payment will be done on quarterly basis based on satisfactory performance by the firm. The payment will be done at the end of each quarter.
