1. PREAMBLE:-

1.1 Ranchi is the capital of Jharkhand, has a metropolitan area of 173 square kilometres with population of 146 lakhs. The city's population grew 30 per cent from 2001 to 2011, making it one of the fastest growing urban areas in India. Close to 70 per cent of the land (about 120 Sq. Km) within Ranchi Municipal Corporation (RMC) limits have been developed.

In the days when motorized vehicles were not commonplace, Ranchi was also a smaller city and it was easy to commute within most of Ranchi by foot or on a cycle. For longer distances, people used cycle rickshaws and rickety buses. Outward expansion of the city has led to an increase in travel distances and higher demand for motorised mobility. Poor quality public transport has not been able to fulfil this demand. As incomes rise, the use of personal motor vehicles, especially cars, is expanding rapidly, leading to congestion in central areas and safety challenges. Ranchi lacks a formalised public transport system and people are largely dependent on Para transit for their day-to-day travel.

1.2 To address these mobility issues, the RMC is interested in expanding the city's public transport system by providing more frequent service, modern rolling stock, and better connectivity throughout the city. The Tata Midi bus fleet will serve the over 120,000 existing daily public transport passengers in the city as well as attract new users.

1.3 RMC has to operate, manage and maintenance city buses procured under JnNURM by Private Sector Participation (PSP) for Ranchi city. At present RMC has 26 Tata Midi buses and 65 existing fleet of city buses.
